Harvard University
Department of Physics
announces a
January Workshop
on
Teaching Science through Dialogue and Discussion
led by
Professor Peter Pesic

Tuesday, Jan. 22
10am–noon discussion
noon–1:30 lunch

Wednesday, Jan. 23
10am–noon discussion
noon–1:30 lunch

location TBA

Open to
Undergraduate Participants
Graduate Teaching Fellows
Faculty Discussion Leaders

Peter Pesic teaches physics, mathematics, music, and philosophy at St. John’s College in Santa Fe. A former physics concentrator at Harvard, he completed a Ph.D. in particle physics at Stanford before joining the St. John’s faculty in 1980.

He has written and edited books on music, mathematics, physics, and philosophy, and is the recipient of a Guggenheim Fellowship for his research on the connections between music and science. He has many years of experience studying and teaching science in a discussion-based format using sources from the primary literature.

Please email Logan McCarty, mccarty@fas.harvard.edu to register. We welcome participation on one or both days. Lunch will be provided for all participants.

Sponsored by the President’s January Innovation Fund for Faculty
