SUMMER EMPLOYMENT

Residential Counselors/Teaching Assistants in Math and Physics

EPGY Summer Institutes 2013

Stanford Pre-Collegiate Studies (SPCS) seeks motivated and energetic undergraduate and graduate students to serve as Residential Counselors for the 2013 Summer Institutes. These advanced academic programs offer intensive study in a single course for talented middle- and high-school students.

Residential Counselors serve a dual role as Teaching Assistants and Camp Counselors. In particular, we seek candidates with strong academic backgrounds for courses offered in both 

Math and Physics:

- Logic and Problem Solving
- Mathematical Puzzles and Games
- Discrete Mathematics
- Game Theory and Decision Analysis
- Cryptography
- Number Theory
- Topology & Non-Euclidean Geometry
- Cosmology & Frontiers of Physics
  (modern physics)
- Relativity and Quantum Mechanics
- Middle School Mathematics
- Middle School Physical Science

This is an ideal opportunity for those who enjoy working with bright, enthusiastic students and are interested in developing or furthering their teaching and leadership experience.

Residential Counselors:

- develop skills in leadership, teaching, mentoring
- earn excellent pay, including on-campus room and board
- enjoy an exciting and rewarding summer

WHEN: June 19 through August 10, 2013

PAY: Starting at $575/week plus full room and board.
