The PVC cordially invites you to help create

Thanksgiving Baskets!

We are teaming up with Goodwill Mass to ensure that local families have a happy holiday.

Each basket costs $45 to create. For most labs/groups, that would be less than $5 per person to feed an entire family! PVC Members will be reaching out this week to help collect donations.

PVC will be doing all the shopping so you don’t have to!

100% of the proceeds will go to providing a family with a complete Thanksgiving dinner.

ALL CONTRIBUTIONS WILL BE DUE FRIDAY 15th NOVEMBER.

The Physics Department is the FIRST University department to ever reach out to Goodwill! Let’s set the Harvard standard by helping as many families as possible!

On behalf of Goodwill Mass and all the Boston families in need, THANK YOU!

(If you would like to make an individual donation, please see Jennifer Bastin in Lyman 324b.)

**Historical!**
Goodwill has been providing these baskets for the past 20 years! See more at: [http://www.goodwillmass.org/](http://www.goodwillmass.org/)

**Local!**
Members of the New England Patriots will hand deliver these baskets to families in need!

**Helpful!**
225 baskets are handed out every year but the waiting list is double that number. It’s up to you to eliminate the wait for food!
